| 16 th | November | Official Departures |

Local Transportation

Transport will be arranged by the Organizing Committee from the airport to the hotel (just in official arrival- departure days) and from the hotel to the competition area.

AIRPORT

Delegations will be welcomed at Antalya Airport International Terminal. If you arrive at the domestic terminal, contact the organizers at +905425466832. The Turkish Blind Sports Federation will provide airport transfers to and from the hotel; please include your arrival time on your application form.

INSURANCE- Health Care

Competitors and officials are required to secure their own health, accident, and liability insurance. The organizing committee holds no liability and does not assume responsibility for any loss or theft of materials or personal belongings throughout the event, nor for any health or accident-related expenses incurred by athletes or team officials.

REFEREES AND LAWS OF THE GAME

Referees are IBSA official referees. Matches are played in compliance with FIFA Futsal and IBSA Partially Sighted Futsal Laws of the Game.

ANTI-DOPING

1.1. ANTI-DOPING CONTROL

In all official IBSA tournaments, it is mandatory to conduct anti-doping controls in accordance with IBSA regulations. Prior to undergoing doping control, athletes may participate in the awards ceremony, fulfill press commitments, or receive medical treatment if necessary. Selected competitors will be continuously accompanied by an official chaperone (appointed by the organizing committee) from the time of notification until their arrival at the Doping Control Station and end the test. An individual of the athlete's choice, such as the team doctor, coach, trainer, or delegation head, may accompany them.

IBSA reserves the right to test any athlete at any time beyond the aforementioned selection during an event. At its discretion, IBSA may allow Testing Authorities to conduct both in-competition and out-of-competition tests. Always remember that all athletes, including minor athletes participating in any official IBSA event, are in

compliance with anti-doping rules and are aware that they may undergo doping control during the event, accepting and cooperating.

1.2 ANTI-DOPING EDUCATION

As previously communicated to all National Federations, it is MANDATORY for all athletes to complete an anti-doping education session before the competition. Please submit the proof of completion at least 3 months in advance, as outlined in the notification sent. This requirement is crucial to ensure that all athletes are well-informed about the anti-doping regulations and procedures, promoting a fair and clean competition environment.

Should you have any questions or require further clarification, please do not hesitate to contact us at anti-doping@ibasport.org. Our team is ready to assist you with any inquiries or support you may need regarding the anti-doping education requirements or any other related matters.

IBSA REGULATIONS FOR PARTICIPATION

The 2025 IBSA Membership Fee must be paid before any country can participate in this competition.

From 1st January 2025, all IBSA athletes must be registered on the ISAS database. Therefore, every athlete must have a current ISAS Administration System (ISAS) license number for 2025, and this must be presented in the final entry form, which will be due on. If you have any problem with ISAS database, please contact: ibsaassist@ibasport.org

Visual Classification

Classification days are November 7th and 8th, 2025.

Please read all below and prepare your team for Classification according to the rules. Players must become familiar with the rules and procedures of IBSA medical classification: <http://www.ibsasport.org/documents/files/68-1-IBSA-Classification-Rules-and-Procedures.pdf>

Submission Deadlines

1. The First Deadline for Submission of a Request for Classification Form (by email to classification@ibsasport.org) and for uploading athlete MDFs and supporting medical tests in ISAS is August 7th, 2025. Submissions received by this deadline will be given priority for allocation of a classification assessment slot at the competition. Athletes will be assigned a classification appointment only after the MDF and supporting medical documents have been approved by the classifiers as establishing a UHC (Underlying Health Condition)

2. Second Deadline: Submissions received after the first deadline (and by September 22nd, 2025) will be allocated a classification slot if available, on a first-come, first-served basis. Athletes will be assigned a classification appointment (if available) only after the MDF and supporting medical documents have been approved by the classifiers as establishing a UHC.

Submissions received after September 22nd, 2025, will not be reviewed by classifiers or considered for this competition.

Medical Diagnostics Form (MDF) and other required medical diagnostics documentation must not be older than 1 year. Final deadline for MDF is September 22nd, 2025.

The Classification Process is as follows

The first step in the classification process is to establish that the athlete has an Underlying Health Condition (UHC) that leads to an eligible vision impairment. This is done by classifiers who review the athlete's Medical Documentation Form (MDF) and supporting medical documents. This review takes place before the athlete is assigned a classification evaluation appointment. If the information is not complete, or there is not sufficient evidence of an UHC leading to an eligible vision impairment, the athlete will not be scheduled for a classification appointment.

1. Once a UHC is established, the athlete can be scheduled for a classification evaluation appointment.
2. At the classification evaluation appointment, the classification panel will
 - a. confirm (or not) the UHC,
 - b. if the UHC is confirmed, the classification panel will proceed with a vision assessment to determine
 - i. if the athlete meets the minimum impairment criteria,
 - ii. assign a sport class and sport class status to the athlete

Only athletes competing in this event can be classified.

THANK YOU!
